ABOUT US

Castle Spa Covers are top of the line in materials and workmanship, the choice of discerning customers nationwide.

We start in the pattern department where an extensive library of line drawings and specifications ensures a perfect product fit. You'll get timely turnaround due to our constant updating of technical specifications for all sizes and styles of spas.

Our materials department ensures that each spa cover is constructed of high grade, inspected components. Our marine grade vinyl is tough and durable and treated with a special stabilizer to prevent color loss from Ultraviolet rays. Flawless aluminum channel bars form the structure of the cover for superior strength. Inside, the high-density polystyrene foam core provides excellent insulation from heat loss. We stock hardworking, 5 mil tri-extruded plastic to seal the foam core, even the zipper is top of the line, able to handle a million ups and downs.

Putting it all together are some of the best sewing professionals and fabricators in the business. When it comes to quality construction, our fabrication department doesn't miss a stitch.

- Speedy turnaround on all orders and custom covers.
- Specially marked shipping cartons so you can find it fast.
- Customer care. We're here to help you serve your customer.
- Experience - craftspeople trained in spa cover construction.

FEATURES

- 1. Marine Grade Vinyl**
Tough and resilient, 100% polyester backing, mildew treated face and back.
- 2. Tough Mesh Bottom**
10 ounce strand-coated polyester mesh with a 9x9 weave for superior strength.
- 3. Commercial Quality Zipper**
Heavy-duty 45 nylon zipper chain and aluminum pulls.
- 4. Locking Buckles**
Acetal locking buckles keep the cover on until you turn the key.
- 5. Heat-Saving Seals**
High density polyurethane foam moisture seals at folds to prevent heat loss.
- 6. Sturdy, Reinforced Handles**
Triple folded reinforced vinyl backed up with double-stitched seams for the sturdiest of handles.
- 7. Triple Strength Straps**
Triple folded reinforced vinyl double-sewn seams.
- 8. Marine Grade Thread**
Marine grade polyester thread is used on all Castle Covers.
- 9. Insulating Polystyrene Core**
Our expanded polystyrene has top-rated insulation properties and is available in three density choices and two thicknesses. The foam core's tapered design keeps rainwater off the spa cover.
- 10. Durable Reinforced Hinge**

The aluminum channel reinforcement at the cover hinge adds strength and durability.

11. **5 mil Moisture Barrier**

The 5 mil thick tri-extruded plastic wrap prevents moisture from reaching the foam core.

12. **Rugged Reinforced Stitching** - adds durability.

13. **Easy Care** - A little soap and water does it.

14. **2 Year Warranty**

Our warranty guarantees unconditional product performance for two years from date of purchase on both materials and workmanship. (one year for inner foam core: see warranty form for details.)

15. **Designer Colors**

Castle Covers come in a wide variety of colors.
